**Dear Editor**

**Journal of Power Technologies**

Please find enclosed a manuscript entitled “Hazards of Hydrogen Transport in the existing Natural Gas Pipeline Network,” which I am submitting with the kindly request of taking into consideration publishing it in Journal of Power Technologies.

In the article, the problem of hydrogen/methane mixture pipeline transport and hazard analysis connected with it are presented. The issue of potential gas mixture transportation using the existing natural gas pipeline network is discussed.

Sincerely,

Katarzyna Stolecka
